# CPRIT's Mission and Action

## Mission

- Create and expedite innovation in cancer research into prevention and cures
- Attract, create, or expand research capabilities
- Create high-quality new jobs in Texas
- Develop and implement the Texas Cancer Plan

## Action

**Award merit-based, peer reviewed grants to Texas-based entities and institutions for cancer-related research, product development and the delivery of cancer prevention programs and services.**

# Prevention Program Priorities

## Principles

Fund evidence-based interventions and their dissemination

Support the continuum of primary, secondary and tertiary prevention interventions

## 2015 Prevention Program Priorities

- Prioritize populations and geographic areas of greatest need, greatest potential for impact
- Focus on underserved populations
- Increase targeting of preventive efforts to areas where significant disparities in cancer incidence or mortality in the state exist

# Areas of Emphasis

---

- **All** applications responsive to RFA are considered
- **Areas of Emphasis highlight:**
  - Geographic areas with higher incidence and mortality
  - Primary cancer prevention
    - sustainable behavior change & areas not well represented in portfolio (e.g., tobacco cessation, liver cancer prevention)
  - Screening/early detection
    - population and geographic disparities
  - Survivorship and improved quality of life
    - measurable improvement
