

## CPRIT PEER REVIEW FY 2024 HONORARIA POLICY<sup>1</sup>

Peer review of prevention and research applications is the evaluation process conducted by qualified experts for feasibility, significance, and potential for impact. Like many funding agencies, CPRIT has implemented a tiered peer review process designed to identify the best projects based on excellence, program-specific objectives, and organizational priorities.<sup>2</sup> Maximizing the success of CPRIT's academic research, product development, and prevention programs is dependent upon the quality of the peer reviewers CPRIT recruits. Therefore, the peer reviewers must be exceptionally qualified, highly respected, well-established members of the cancer research, product development, and prevention communities.

CPRIT relies upon a pool of more than 200 expert peer reviewers to evaluate, score and rank grant applications based upon significance and merit. As reflected above, the general peer review structure is the same for CPRIT's three grant programs. CPRIT assigns reviewers to peer review committees based upon their expertise and background. The evaluations conducted by the peer review committees inform the list of grant applications recommended for CPRIT grant awards.<sup>3</sup>

CPRIT's expert peer reviewers live and work outside Texas, which is an uncommon requirement among grant-making organizations. CPRIT implemented this peer reviewer qualification to

<sup>1</sup> Adopted pursuant to TEX. HEALTH & SAFETY CODE Section 102.151(e).

<sup>2</sup> The National Academies of Sciences recommends a tiered approach to peer review.

<sup>3</sup> For more information about the grant review process undertaken by the peer review committees, please see CPRIT's administrative rules, 25 T.A.C. Part 11, Sections 703.6 and 703.7.

ensure an impartial review, minimize conflicts of interest, and provide the opportunity to select the best projects without regard for self-interest.

## **Honoraria**

In recognition of the work undertaken by CPRIT peer reviewers, state law authorizes CPRIT to pay honoraria to its peer reviewers.<sup>4</sup> CPRIT's ability to pay honoraria is essential to retaining individuals with the expertise and experience to carry out the complex review process required by statute and CPRIT's administrative rules.

CPRIT recruits world-renowned experts who live and work outside of the state to be peer reviewers. CPRIT's residency policy is important to maintaining a review process that minimizes the potential for political and other outside influences, but it means that the CPRIT review process, by design, lacks non-monetary incentives common to other grant review processes that may otherwise justify the time commitment required of CPRIT peer reviewers in addition to their full-time jobs.

Specifically, CPRIT reviewers are not eligible to compete for CPRIT grants. This is different from other cancer grant-making organizations such as National Institutes of Health (NIH), Centers for Disease Control and Prevention, Department of Defense, American Cancer Society, and Susan G. Komen for the Cure. For example, NIH reviewers may review grant applications as well as compete for NIH grants. Familiarity with the NIH review process gained by serving as an NIH peer reviewer provides the individual a significant non-monetary benefit since that understanding better positions the reviewer to compete for and secure NIH grant funds as an applicant. This benefit is not available to CPRIT's reviewers.

A second nonmonetary benefit from serving on a review panel is that such service is an indication of external recognition in one's field, which is essential for academic and industry promotions. Using individuals already well established in their careers means that this is not an incentive for CPRIT peer reviewers to participate.

The Chairs of CPRIT review committees are all highly distinguished in their respective fields and bring enormous stature to the peer review process. Unlike chairs of other review processes, CPRIT's chairs are responsible for recruiting peer reviewers for their panel. In addition, they serve as strategic advisors for CPRIT's grant programs. These responsibilities are unique to CPRIT review committee chairs and require more effort and expertise than simply chairing a committee. Having committee chairs of this caliber distinguishes CPRIT's peer review process from all others.

## **Honoraria Payment Process and Documentation**

**Review Council and Committee Chairs** receive quarterly honoraria payments directly from CPRIT. The honoraria payment process for Review Council chairs and Committee chairs is as follows:

---

<sup>4</sup> TEX. HEALTH & SAFETY CODE Section 102.151(d)

1. At the end of the fiscal quarter, the Review Council chairs and the Committee chairs submit to CPRIT a written confirmation of the work performed and an estimate of hours<sup>5</sup> spent related to CPRIT's peer review activities for the quarter.
2. The CPRIT Program Officer reviews the confirmations and approves payment of quarterly honoraria to the Review Council chair and Committee chairs.
3. CPRIT's financial staff authorizes payment of the honoraria and retains the documentation supporting the honoraria payment.
4. The Chief Compliance Officer and Internal Auditor may also review the confirmations submitted.

CPRIT's third party grant administrator pays peer reviewers for each review cycle in which they participate. To document the work performed by a peer review committee member for the review cycle, CPRIT's third party grant administrator confirms that the reviewer attended the peer review meeting and submitted written comments and scores for the grants assigned to the reviewer for evaluation.

CPRIT also reimburses travel expenses and pays the Texas state per diem when peer reviewers, Review Council chairs, and Committee chairs travel to attend peer review meetings. CPRIT relies upon standard travel documentation for travel reimbursements.

In the event a Review Council chair, Committee chair, or peer reviewer is not able to complete a full review cycle due to unforeseen circumstances, the CPRIT Program Officer may approve, in his or her discretion, a partial payment of the honorarium. The Program Officer should explain in writing the basis for approving a change to the reviewer's honorarium; CPRIT will retain such explanation as part of the grant review records. Nothing herein prevents the Program Officer from approving full payment even if the reviewer is unable to participate in every aspect of the review cycle so long as the reason is well justified.

## **Peer Review Responsibilities**

All CPRIT programs plan standard multi-cycle grant review activities to fully award all available grant funds allocated for FY 2024. CPRIT will continue to convene peer review meetings via videoconference for FY 2024. CPRIT first used videoconference meetings for all peer review activities held after March 2020 and the process has worked well.

---

<sup>5</sup> CPRIT pays honorarium for the annual service of the Review Council chair or Committee chair. The payment does not use an hourly wage structure; the estimated number of hours devoted to CPRIT activities by a Review Council or Committee chair may vary by quarter depending upon the timing of review cycle activities. CPRIT uses the hourly estimate at the end of the year to set honoraria payment structures for the next fiscal year.

## Review Council Chairs

The Council Chair works directly with the CPRIT Program Officer to coordinate the peer review activities for each CPRIT program. The CPRIT model for peer review is unique. Other grant-making programs typically use committee chairs only to preside at committee meetings; however, CPRIT engages preeminent experts in their field for the Council Chair and Committee Chair positions to advise CPRIT on program aspects, including the short-term and long-term direction of the program, the review process itself, and the award portfolio composition. The chair's does this work in addition to the administrative tasks associated with chairing Review Council meetings. Many of the Council Chair responsibilities are similar across the three CPRIT programs, including:

- advising on the selection of committee chairs
- recruiting specialized peer reviewers and assisting with peer reviewer selection
- reviewing all abstracts of projects discussed at Prevention, Scientific, and Product Development Review Council meetings
- chairing Review Council meetings
- chairing a peer review panel meeting if a chair has an unexpected conflict<sup>6</sup>
- finalizing grant award recommendations submitted to the Chief Executive Officer
- providing ongoing advice to CPRIT staff on programs, review processes, and future funding opportunities

Estimated Annual Time Commitment: CPRIT expects Council Chairs to commit approximately 300 hours to CPRIT-related activities in FY 2024. This equates to 14.4% of a standard 2080-hour work year. **Table 1** provides a detailed analysis of the activities, hours, and units used to project the Council Chair workload. The information in Table 1 reflects 2018 – 2023 review cycle information and the projected workload for FY 2024.

NOTE: Due to changes in the Product Development Program review process that CPRIT instituted in FY 2023, CPRIT will continue to use a bifurcated honoraria policy for the Product Development Review Council (PDRC) Chair and Deputy Chair:

- As reflected on Table 1, the PDRC Chair and Deputy Chair<sup>7</sup> will receive a base honoraria that reflects their work advising CPRIT on the review process and RFAs, monitoring the preliminary application review implementation, advising CPRIT on review panel assignments as well as activities coordinating the review of annual progress reports and milestone funding decisions and providing expert advice and assistance related to CPRIT's product development portfolio and substantive grant contract amendment requests.
- In addition to the base honoraria, if the PDRC Chair or Deputy Chair participate in the review of preliminary applications and/or the review of full applications, they will receive honoraria for participation in those review activities as set forth on Table 4.

---

<sup>6</sup> The Product Development Committee Chair regularly chairs review committee meetings.

<sup>7</sup> In FY 2016, CPRIT created the PDRC Deputy Chair position. This position is equivalent to the PDRC Chair position except that the Deputy Chair will not prepare slate recommendation for the Chief Executive Officer.

Hourly Rate Proxy: CPRIT pays honorarium for the annual service of the Review Council chair and is not based on an hourly wage structure. However, for comparison, the honoraria paid to Review Council chairs equate to a \$250/hour rate. This is in line with hourly rates paid for skilled professional services in other industries and less than the \$500+/hour rate paid for medical experts in malpractice cases.<sup>8</sup> The hourly rate used by CPRIT is also likely to be less than rates used to calculate consultant fees for physicians and scientists who advise pharmaceutical companies. Although there is no standard rate for consulting fees, one Texas institution of higher education limits the amount of consulting fees a professor may accept to 25% of their base salary. The capped amount is greater than the \$72,000 - \$83,400 honoraria paid to CPRIT Review Council Chairs.

## **Review Committee Chairs**

A Committee Chair leads each peer review committee. The CPRIT model for peer review is unique. Other grant-making programs typically use committee chairs only to preside at committee meetings; CPRIT engages preeminent experts in their field for the Committee Chair positions to advise CPRIT on program aspects, including the short-term and long-term direction of the program, the review process itself, and the award portfolio composition. The Committee Chair does this work in addition to the administrative tasks associated with chairing peer review committee meetings. Committee Chairs are also members of the Review Council for the program. Duties of the committee chair include:

- recruiting reviewers for their review panels
- assigning applications to their panel members
- becoming familiar with the abstracts and applications assigned to their panel
- determining order of review for applications for panel discussion
- chairing panel discussions; capturing key discussion points
- reviewing full applications to participate in programmatic review meetings
- evaluating CPRIT Scholar recruitment grants (Scientific Review Committee chairs)
- assessing due diligence and intellectual property reports for product development applications (Product Development Review Committee chairs)
- ranking grant applications and developing a list of recommended grant awards and supporting information for consideration by the CPRIT Program Integration Committee
- reviewing annual progress reports and milestone funding decisions (Product Development Program)
- participating in meetings with CPRIT staff to provide advice on future program directions, processes, evaluation criteria, and other related issues

Estimated Annual Time Commitment: The amount of time spent on committee chair activities varies depending on the program. CPRIT expects Review Committee chairs to commit between 190 and 250 hours to CPRIT-related activities in FY 2024. **Table 2** provides a detailed analysis

---

<sup>8</sup> Data from *National Medical Consultants, P.C.*, a physician owned and operated company representing a panel of over 2700 medical experts who are distinguished specialists in all areas of medicine.

of the activities, hours, and units used to project the committee chair workload. The information in Table 2 reflects 2009 – 2023 review cycle information and the projected workload for FY 2024. For the purposes of the honoraria policy, CPRIT refers to Product Development Review Council members as “committee chairs” and they perform all activities listed in Table 2.

**NOTE:** Due to changes in the Product Development Program review process that CPRIT instituted in FY 2023, CPRIT will continue to use a bifurcated honoraria policy a bifurcated honoraria policy for the PDRC Committee Chairs:

- As reflected on Table 2, the PDRC Committee Chairs will receive a base honorarium that reflects their work advising CPRIT on the review process and RFAs, as well as activities coordinating the review of annual progress reports and milestone funding decisions and providing expert advice and assistance related to CPRIT’s product development portfolio and substantive grant contract amendment requests.
- In addition to the base honoraria, the PDRC Committee Chairs participating in the review of preliminary applications and/or the review of full applications will receive honoraria for their participation in those review activities as set forth on Table 4.

**Hourly Rate Proxy:** CPRIT pays honorarium for the annual service of the Review Committee chair and is not based on an hourly wage structure. However, for comparison, the honoraria paid to Committee chairs equates to a \$200/hour fee. This is in line with hourly rates paid for skilled professional services in other industries and less than the \$500+/hour rate paid for medical experts in malpractice cases.<sup>9</sup> The hourly rate used by CPRIT is also likely to be less than rates used to calculate consultant fees for physicians and scientists who advise pharmaceutical companies. Although there is no standard rate for consulting fees, one Texas institution of higher education limits the amount of consulting fees a professor may accept to 25% of their base salary. The capped amount is more than the \$37,000 - \$50,000 honoraria paid to CPRIT Review Committee Chairs.

## **Review Committee Members**

The number of peer review committees varies by program based on the volume of grant applications submitted. Peer reviewers are responsible for individually reviewing, scoring and critiquing 6-10 applications per cycle, as well as participating in panel discussions about grant applications assigned to the peer review committee. A reviewer spends 6 – 8 hours for a full review of a single application, but the reviewer may require much more time for complex, highly technical applications. A typical CPRIT grant application averages about 40 pages in length with additional supporting documentation. Applications for multimillion-dollar collaborative research projects and product development projects may be far more extensive.

**Estimated Time Commitment per Review Cycle:** Peer reviewer activity varies by program and number of applications assigned. CPRIT expects academic research peer reviewers to commit approximately 85 hours per review cycle. Prevention peer reviewers will commit 55-70 hours per cycle. **Table 3** provides a detailed analysis of the activities, hours, and units used to project the

---

<sup>9</sup> Data from *National Medical Consultants, P.C.*, a physician owned and operated company representing a panel of over 2700 medical experts who are distinguished specialists in all areas of medicine.

peer review workload. The information in Table 3 reflects 2009–2023 review cycle information and the projected workload for FY 2024.

For product development peer reviewers, CPRIT instituted a change in FY 2023 that will continue for FY 2024 in which the agency pays honoraria on an application vs. review cycle basis. This change provides CPRIT more flexibility to use ad hoc reviewers whose expertise aligns with the application’s underlying science, product, and development/ regulatory stage. Before FY 2023, the Product Development Program relied upon two review panels populated by 20-24 experts that met two times per year to evaluate all product development applications submitted by a set deadline. For scheduling purposes, the process required CPRIT to create the panels in advance of receiving applications, which decreased CPRIT’s ability to add reviewers with specific expertise based upon the applications received. In addition, some potential expert reviewers were unable to participate due to the significant time commitment (at least four full business days of meetings per cycle and 80 – 100 hours for reviewing and scoring applications.) A manageable time commitment for the reviewers is a significant incentive for potential review candidates and is crucial to CPRIT’s ability to expand its bench of expert reviewers.

Hourly Rate Proxy: CPRIT pays honorarium to Academic Research and Prevention peer reviewers for a given review cycle, which is not based on an hourly wage structure. However, for comparison, honoraria paid to Academic Research and Prevention peer reviewers equates to a rate of \$50/hour. Honoraria paid to Product Development peer reviewers is \$65/hour. These reviewers must have both academic research and product development backgrounds and are more difficult to recruit. While the hourly rates are significantly less than those paid to professionals of this caliber, the rate is appropriate given the workload and responsibilities compared to Review Council and Committee chairs.

## **Comparison to other Grant Making Organizations**

Grant-making organizations use various models and methods for compensating peer review committee members. A survey of 21 cancer granting organizations reported wide variation among programs such that an average compensation scheme for panel members was not possible. The disparity among organizations makes it difficult to devise a benchmark compensation method or amount. Reported compensation practices may fail to include intangible benefits available to reviewers in addition to monetary compensation, which further complicates the ability to make a meaningful comparison between CPRIT and other grant-making organizations. As discussed earlier, these non-monetary incentives are unavailable to CPRIT reviewers because of CPRIT’s policy to use highly qualified, experienced, out-of-state reviewers.

- International Cancer Research Partners (ICRP) surveyed 31 of its partner organizations and 21 responded. The report found that organizations paid different honoraria depending on the role of the reviewer. Chairs often received more than committee members did, and teleconference or online reviewers typically received less

compensation than those members who participated in-person. The report did not compute an average based on the supplied data.<sup>10</sup>

- CPRIT's third party grant administrator reports that two other clients pay reviewers \$1,250 and \$2,000 per review meeting.
- NCI's website reports that NCI pays \$200 per day of review in addition to travel expenses.

---

<sup>10</sup> The report did not include a range, but the survey sponsors indicated the range for compensation for panel members was \$150-\$3,000 per day.

**Table 1. Council Chair Activities** (See Table 5 for an explanation of the correlation between units and hours.)

Table 1 - Review Council Chair Activities, Hours, Units						
Academic Research Program		Prevention Program		Product Development Program – Base*

See Table 5 for an explanation of the correlation between units and hours.

\* For the Product Development Program, the members of the Product Development Review Council (PDRC) fulfill the “Committee Chair” activities.

\*\* The PDRC may receive honoraria in addition to the base honoraria if they participate in reviewing preliminary or full applications. See Table 4.

**Table 3. Peer Reviewer Activities per Cycle** (See Table 5 for an explanation of the correlation between units and hours.)

Prevention Review: ~20 reviewers		Academic Research Review: ~ 130 reviewers	
Units	Activity	Units	Activity
1	Declaration of expertise and conflicts	1	Declaration of expertise and conflicts
8	Preparation of full critiques	10	Preparation of critiques*
1	Premeeting preparation of video conferencing capabilities	1	Premeeting preparation of video conferencing capabilities
4	Participation at meeting	3	Participation at meeting
1	Post-meeting discussion**	1	Post-meeting discussion**
1	Post-meeting survey to provide CPRIT feedback on CPRIT 2.0	1	Post-meeting survey to provide CPRIT feedback on CPRIT 2.0
16	\$250 Unit cost \$50 avg. hourly rate \$4,000 per cycle	17	\$250 Unit cost \$50 avg. hourly rate \$4,250 per cycle

\* This may be less for reviewers that participate only in the preliminary application review. The grant mechanism specifies when CPRIT uses preliminary reviews.

\*\* Post-meeting discussion activities may include finalizing funding recommendations, finalizing critiques, clarifying recommendations related to funding or goals/objective changes, de-briefing about the review cycle, and/or other activities specified by the CPRIT Program Officer.

**NOTE:** CPRIT pays peer reviewers only for activities in which they participate. For example, participation at a research peer review meeting is 3 units (11-15 hours) and CPRIT values each unit at \$250; thus, the amount paid to an academic research peer reviewer for attendance at a peer review meeting is \$750. If the reviewer was unable to attend the meeting, then CPRIT subtracts \$750 from the honorarium paid to the reviewer. In the event a Review Council chair, Committee chair, or peer reviewer is not able to complete a full review cycle due to unforeseen circumstances, the CPRIT Program Officer may approve, in his or her discretion, a partial payment of the honorarium.

**Table 4. Product Development Peer Reviewer Activities per Application** (See Table 5 for the correlation between units and hours.)

<b>Preliminary Application Review (PDRC members only) ~ 8 – 12 members</b>	
<b>Units</b>	<b>Activity</b>
2	Declaration of conflicts
14	Review, score and critique preliminary applications
4	Participation in preliminary application panel teleconference
<b>20</b>	<b>Total Units for Preliminary Application Review</b>
<b>\$875</b>	<b>Unit Cost</b>
<b>\$17,500</b>	<b>Total</b>
<b>Full Application Review (per application) ~ 60 reviewers</b>	
<b>Units</b>	<b>Activity</b>
.5	Declaration of conflicts and expertise
3.5	Review full application, score and prepare critique
1	Participate in company presentation meeting and peer review panel discussion
2.5*	Participate in due diligence review and meetings, funding recommendation
2**	Lead panel member who manages panel discussion, coordinates critiques and scoring
<b>5 – 9.5</b>	<b>Total Review Units per Full Application</b>
<b>\$325</b>	<b>Unit cost</b>
<b>\$1,625 – \$3,075</b>	<b>Total per Full Application</b>
* Only those applications scoring sufficiently well will proceed to due diligence review; reviewer will only receive this additional honorarium if the application undergoes due diligence review.	
** Each review panel will have one lead member; only the reviewer designated as the lead member receives this additional honorarium.	

**Table 5. Hours and Units Calculation**
