CURRENT RULEMAKING PROJECT

At its May 20, 2026, meeting, the Oversight Committee approved the release of proposed changes to Texas Administrative Code § 703.23.

In the proposed amendment, CPRIT clarifies when it will withhold the final ten percent (10%) of total grant funds to ensure a grantee successfully completes all close-out requirements. CPRIT will withhold the final 10% from product development grantees regardless of whether they receive funds through advancement or reimbursement. CPRIT may also withhold the final 10% from all other grantees if it gives them timely notice. Any grantee may request that CPRIT withhold less than 10% of the final funds. The request must appear in writing and include a reasoned justification. CPRIT's Chief Executive Officer will make the final determination and notify the Oversight Committee of any approved request.

Members of the public may submit written comments through July 6, 2026, to CPRIT's General Counsel, John Ellis, by fax (512/475-2563); by email (jellis@cprit.texas.gov); or by mail to the Cancer Prevention and Research Institute of Texas, P.O. Box 12097, ATTN: Rulemaking Project, Austin, Texas, 78711.

The Oversight Committee expects to consider a final order that reflects the comments CPRIT receives on the

FINANCIAL STATUS REPORT Q&A

PERSONNEL / FRINGE EXPENSE CATEGORY

Polling Question

Employees who work on administrative activities directly related to a grant award may be classified as:

- A. Direct costs and budgeted under the Personnel budget category
- B. Indirect costs and budgeted under the Indirect budget category

Answer: A.

Salary Cap

The annual salary (also referred to as direct salary or institutional base salary) that an individual may be reimbursed from a CPRIT award is limited to a maximum of \$200,000

Salary does not include fringe benefits and/or facilities and administrative costs, also referred to as indirect costs

Applications submitted in cycle 25.1, the maximum salary amount supported by CPRIT grant funds for an individual with 100% level of effort on a grant award is \$225,000

P&P Guide Reference:
9.5.2 Salary Limits

Fringe Benefits

Examples of fringe benefits include the employer portion of FICA and Medicare, the cost of employee insurance, pensions, and unemployment benefit plans.

Fringe benefits may not exceed 35% of total salary expense for the period being reported.

Grantees reporting pooled fringe benefits using a federally approved rate can submit the total fringe amount for each employee without detailing the types of benefits. Include a copy of the agreement effective during the FSR reporting period, outlining the pooled benefit categories.

Timesheets

Timesheets must be signed by the employee and supervisor having first-hand knowledge of the activities performed by the employee

An electronic signature on time sheets is acceptable

P&P Guide Reference:
10.2.2.1 Time Sheets/Other Records of
Actual Hours Worked

PERSONNEL LEVEL OF EFFORT (PLOE)

Personnel Level Of Effort (PLOE) – Myth vs Fact

Myth

Only employees receiving salary and fringe benefits should be included on the PLOE.

Fact

Employees eligible for travel expense reimbursements should also be listed on the PLOE as “Travel Only”

Example of a NCE which resulted in a Year 4 – automatically populates with zeros

Best Practice - PLOE Updates

Update quarterly prior to submitting the FSR

Ensure that 'Travel only' is included for employees with 0% effort who qualify for travel expense reimbursement

Outgoing personnel who provided LOE for reimbursement should remain on the PLOE for compliance purposes

Ensure that the PLOEs are updated and accurate for No Cost Extensions (NCEs) as they default to zero.

Grants transitioning to closeout status cannot be revised in CARS-CGMS, and any unlisted personnel expenses will not be reimbursed.

New CPRIT Grants Management Platform (GMP)

- CPRIT is launching a new Grant Management Platform (GMP) in August.
- The new CPRIT GMP:
 - Is a comprehensive online platform to apply for, manage, and report on CPRIT-funded grants.
 - Will fully replace the existing application, peer review, and grants management systems. CPRIT currently uses (CARS, P2RMIS, and CGMS) and provide a consistent, unified experience across the full grant lifecycle for CPRIT staff, peer reviewers, grant applicants, and grantees
 - **Will be released in phases**, with the first module available in early August. This module will support the FY27.2 Academic Research and Prevention grant application cycles.
- **You do not need to take any action today.** CPRIT is transitioning contact information for users and organization information (e.g. company/institution name, EIN and TIN) ahead of the initial launch in August. Current and past grants will be migrated later and available in the GMP when the post-award module launches in January 2027. We may reach out if we have any questions in advance of the launch.

GMP Key Milestones
